Subject: Effective action against Drug abuse.

Sir,

I am to say that of the many suggested action points for taking on drug abuse and to prevent children from this menace it has been decided to introduce ,

1) One slot in each and every training conducted anywhere on any subject, "ill effects of Drugs and our responsibility to eradicate this" as one of the topics. The topic may vary but the focus ought to be on the ill effects of the Drugs abuse its consequences and our duty to eliminate the same.

2) In the morning assembly session also, suitable content developed by the SCERT or DIET may also be taken up. I may add here that from the coming academic session 'ill effects of Drugs' is going to find a place in the syllabus. One of the suggested and implementable points is the enactment of short duration play/skits by the students highlighting the ill effects of Drug abuse.

In case there are any other suggestions the same may be implemented with the overall objective and to also ensure that children don't become a victim of this.

Yours faithfully,

Dr. Arun Kumar Sharma I.A.S
Secretary (Education) to
the Govt. of Himachal Pradesh
